

Schema version: 3.0.1

## OCX schema version: 3.0.1

### Reason for change

Patch version fixing minor schema bugs, see OCX v3.0.1 changelog. This version is fully compatible with 3.0 schema versions.

### What is a changelog

All notable changes to the OCX schema are documented [in this file](#) on GitHub. This document lists the notable changes proposed for OCX version 3.0.1

The format is based on [Keep a Changelog](#), and the OCX project adheres to the Python [PEP 440 versioning recommendations](#).

### Types of changes

- Added for new features.
- Changed for changes in existing functionality.
- Deprecated for soon-to-be removed features.
- Removed for now removed features.
- Fixed for any bug fixes.
- Security in case of vulnerabilities.

### How to read this document

Each committed schema change is a labelled section heading in the following format:

**[major.minor.micro{a|b|c|rc}N] – YEAR.MM.DD**

All changes are listed under each heading using the change type category listed above.

Schema version: 3.0.1

## OCX v3.0.1 changelog

**[3.0.1] - 2024.06.20**

Bump to 3.0.1

Release tag: [v3.0.1](#)

Schema release version

### Change

- [Wrong cardinality on PlateCutBy #148](#)

Committed missing changes in previous commits:

- [ReferenceBase\\_T: remove mandatory name attribute #144](#)
- [ConnectedBracketRef\\_T missing its ref. #123](#)
